Message from the Principal

Wisdom Sculptures freedom
freedom promotes knowledge
Knowledge exudes love
Love propels education

Education visualizes dreams and dreams are the touchstone of Character!

Schools are the training centre for the citizens of tomorrow. To ensure that Indians have a space in the global platform, we need to nurture and promote innovation in thinking. Children must be encouraged to think through a problem and come up with creative solutions by the help of technical support.

Every new day brings a new experience to be felt and a new mystery to be solved, so everyday there is a new era to be explored. This is a process that helps in moulding and shaping the budding geniuses for the bright future of the nation.

Finally, the future lies in the hands of individuals who are ready to learn all through their lives. The understanding and acknowledgment of this fact will bring about commitment and qualitative change in teaching and learning process by the co-ordination of all the stakeholders of education sector i.e. Parent, Child and Teacher.
